Leonora Carrington Website

I want to incorporate some aspects of surrealist style into my website and have multiple parts that relate to different aspects of who she was and her work. She was one of the most influential Surrealist artists and has only more recently been addressed properly by art history scholarship. I think more people should know of her work and see her masterpieces.

- Early Life
- Influences
- Career
- Important Works

I have learned about her and some of her contemporaries in two of the classes I have taken, and her work is extremely intriguing to me. I will enjoy working with this as the subject for my project.
